

CISSP certification study planner

by ThorTeaches

	Watched all videos	Read the book	Re-watched all videos	Practice Test	Videos, book, practice test	Scoring 80%+ on tests	Exam ready!
Domain 1. Security and Risk Management 16%							
Domain 2. Asset Security 10%							
Domain 3. Security Engineering 12%							
Domain 4. Communication and Network Security 12%							
Domain 5. Identity and Access Management 13%							
Domain 6. Security Assessment and Testing 11%							
Domain 7. Security Operations 16%							
Domain 8. Software Development Security 10%							

CISSP certification study planner

by ThorTeaches

Domain 1.

Security and Risk Management 16%

	Watched all videos	Read the book	Re-watched all videos	Practice Test	Videos, book, practice test	Scoring 80%+ on tests	Exam ready!
Confidentiality, integrity, and availability concepts (CIA)							
Identification, Authentication, Authorization, and Auditing (IAAA)							
Compliance							
Legal and regulatory issues							
Professional ethics							
Security policies, standards, procedures, and guidelines							
Risk analysis							
Types of attackers							

CISSP certification study planner

by ThorTeaches

Domain 2.

Asset Security 10%

	Watched all videos	Read the book	Re-watched all videos	Practice Test	Videos, book, practice test	Scoring 80%+ on tests	Exam ready!
Information and asset classification							
Ownership (e.g., data owners, system owners)							
Protect privacy							
Appropriate retention							
Data security controls							
Handling requirements (e.g., markings, labels, storage)							

CISSP certification study planner

by ThorTeaches

Domain 3.

Security Engineering 12%

	Watched all videos	Read the book	Re-watched all videos	Practice Test	Videos, book, practice test	Scoring 80%+ on tests	Exam ready!
Fundamental concepts of security models							
Engineering processes using secure design principles							
Security architectures, designs, and solution elements vulnerabilities							
Virtual and distributed systems vulnerabilities							
Cryptography (Asymmetric/Symmetric)							
Cryptography (PKI and crypto applications)							
Site and facility design secure principles							
Physical security							

CISSP certification study planner

by ThorTeaches

Domain 4.

Communication and Network Security 12%

	Watched all videos	Read the book	Re-watched all videos	Practice Test	Videos, book, practice test	Scoring 80%+ on tests	Exam ready!
Secure network architecture design							
Networking models (OSI)							
Networking models (TCP/IP)							
WAN and LAN technologies and protocols							
Secure network components							
Secure communication channels Network attacks							

CISSP certification study planner

by ThorTeaches

Domain 5.

Identity and Access Management 13%

	Watched all videos	Read the book	Re-watched all videos	Practice Test	Videos, book, practice test	Scoring 80%+ on tests	Exam ready!
Physical and logical assets control							
Identification and authentication of people and devices							
Identity as a service (e.g., cloud identity)							
Third-party identity services (e.g., on-premise)							
Access control attacks							
Identity and access provisioning lifecycle (e.g., provisioning review)							

CISSP certification study planner

by ThorTeaches

Domain 6.

Security Assessment and Testing 11%

	Watched all videos	Read the book	Re-watched all videos	Practice Test	Videos, book, practice test	Scoring 80%+ on tests	Exam ready!
Assessment and test strategies							
Security process data (management and operational controls)							
Security control testing							
Test outputs (e.g., automated, manual)							
Security architecture vulnerabilities							
Audits (internal and external)							

CISSP certification study planner

by ThorTeaches

Domain 7.

Security Operations 16%

	Watched all videos	Read the book	Re-watched all videos	Practice Test	Videos, book, practice test	Scoring 80%+ on tests	Exam ready!
Investigations support and requirements							
Logging and monitoring activities							
Provisioning of resources							
Foundational security operations concepts							
Resource protection techniques							
Incident management							
Preventative measures							
Patch and vulnerability management							

CISSP certification study planner

by ThorTeaches

Domain 7.

Security Operations 16%

	Watched all videos	Read the book	Re-watched all videos	Practice Test	Videos, book, practice test	Scoring 80%+ on tests	Exam ready!
Change management processes							
Recovery strategies							
Disaster recovery processes and plans							
Business continuity planning and exercises							
Physical security							
Personnel safety concerns							

CISSP certification study planner

by ThorTeaches

Domain 8.

Software Development Security 10%

	Watched all videos	Read the book	Re-watched all videos	Practice Test	Videos, book, practice test	Scoring 80%+ on tests	Exam ready!
Security in the software development lifecycle							
Development environment security controls							
Software security effectiveness							
Acquired software security impact							

CISSP certification study planner

by ThorTeaches

Practice test - Type in your test below:

	Test % score and date	Test % score and date	Test % score and date	Test % score and date	Test % score and date	Test % score and date	Scoring 80%+ on tests
Domain 1. Security and Risk Management 16%							
Domain 2. Asset Security 10%							
Domain 3. Security Engineering 12%							
Domain 4. Communication and Network Security 12%							
Domain 5. Identity and Access Management 13%							
Domain 6. Security Assessment and Testing 11%							
Domain 7. Security Operations 16%							
Domain 8. Software Development Security 10%
